Front End & UX/UI: HTML, CSS, JavaScript, React, jQuery, AngularJS, Sass, Bootstrap, SkeletonCSS, Sketch

Back End & Databases: Node.js, Express, PHP, MongoDB, Mongoose, PostgreSQL

Deployment & Version Control: Heroku, Netlify, Git, GitHub

PROJECTS

Life's Music

mern-music.herokuapp.com/

Established a web app that automatically generates playlists based on user inputted songs.

HTML, CSS, JavaScript, MongoDB/Mongoose, Express, React, Node.js, SkeletonCSS, Heroku

MusicApp

fierce-springs-93898.herokuapp.com/

Collaborated with a classmate to create an app where users input songs, add them to 'favorites' and rate those songs.

HTML, CSS, JavaScript, PostgreSQL, React, PHP, Heroku

onTheRocks

ontherocks.herokuapp.com/

Worked with 2 classmates and developed an app that allows users to find and save new cocktails and add comments.

HTML, CSS, JavaScript, MongoDB/Mongoose, Express, AngularJS, Node.js, Skeleton CSS, Heroku

Wedding Planner

weddingguestlist.herokuapp.com/

Developed a wedding planning app designed to help the bride and groom plan their big day by inputting and tracking guest RSVPs and invites and payments and allowing their guests to RSVP by searching their name.

HTML, CSS, JavaScript, MongoDB/Mongoose, Node.js, Express, EJS, Skeleton CSS, Heroku

Top News

gnola.github.io/news_app/

Constructed an app utilizing a news API and displays the top 5 current news articles based on the category selected.

HTML, CSS, JavaScript, jQuery, GitHub
